

effect that regulatory authorities have not approved the proposed plats; that they may require significant alterations before they will approve them and they may not allow the land to be used for the purpose for which it is being sold.

(ii) Have plats covering the lots in this Report been recorded? If so, where are they recorded? If they have not been recorded, is the description of the lots given in this Report legally adequate for the conveyance of land in the jurisdiction where the subdivision is located? If it is not, include a statement to the effect that the description of the lots is not legally adequate for the conveyance of the lots and that it will not be until the plat is recorded.

(2) *Zoning.* For what purpose may the lots be used (e.g., single family homes, camping, commercial)? Does this use conform to local zoning requirements and the restrictive covenants?

(3) *Surveying.* Has each lot been surveyed and is each lot marked for identification? If not, and the purchaser is responsible for the expense, state the estimated cost.

(4) *Permits.* Must the purchaser obtain a building permit before beginning construction on his lot? Where is the permit obtained? Are any other permits necessary to use the lot for the purpose for which it is sold or for construction in connection with its use?

(5) *Environment.* Has there been any environmental impact study prepared which considers the effect of the subdivision on the environment? If a study has been prepared, summarize any adverse conclusions and refer the lot buyer to the proper State Clearinghouse for complete information. If a study has not been prepared, include a statement that "No determination has been made as to the possible adverse effects the subdivision may have upon the environment and surrounding area."

(If the developer does not know whether an environmental impact study has

been prepared, or the name and location of the Office where any study made can be found, inquiry should be made to the State or Area Clearinghouse established under the authority of title IV of the Intergovernmental Cooperation Act of 1968.)

§ 1710.110 Roads.

(a) *Access to the subdivision.* (1) Is access to the subdivision provided by public or private roads? What type of surface do they have? How many lanes? What is the width of the wearing surface?

(2) Who is responsible for their maintenance? What is the cost to the purchaser, if any? Are any improvements contemplated? If so, when will they begin and when will they be completed? At whose expense?

(b) *Access within the subdivision.* (1) How have legal and physical access by conventional automobile been or will they be, provided to the lots (e.g., road on recorded easement; right of way dedicated to the public; right of way dedicated to use of lot owners)?

(2) Who is responsible for the road construction? Is there any construction cost to the purchaser? Is there any financial assurance of completion? If there is no financial assurance of completion, enter a warning to the effect that no funds have been set aside in an escrow or trust account and there are no other financial arrangements to assure completion of the roads.

(3) How many lanes do the interior roads have? What is the estimated starting date of construction (month and year); the present percentage of construction now complete; the present surface; the estimated completion date (month and year) and what is the final surface to be? If there are separate units or sections in the subdivision which will have different completion dates or different surfaces, the following chart shall be used rather than a narrative paragraph.

Unit	Estimated starting date (month/year)	Percentage of construction now complete	Estimated completion date (month/year)	Present surface	Final surface

§ 1710.111

24 CFR Ch. X (4-1-13 Edition)

(4) Who is responsible for road maintenance? If the roads are to be maintained by a public authority, a property owners' association or some other entity at some time in the future, who is responsible for their maintenance during the interim period? What is the cost to the purchaser during the interim period and after acceptance for permanent maintenance? Will they be maintained so as to provide access to the lots on a year round basis? If not, include a warning which informs the purchaser that access may not be available year round. Identify the months when access may not be available to lots. If there are no arrangements for maintenance, include a warning to the effect that purchasers are responsible for maintaining the roads and that, if maintenance is not performed, the roads may soon deteriorate and access may become difficult or impossible.

(5) If estimated completion dates given in prior Statements of Record have not been met, state that previous dates have not been met and give the previous dates. Underline the answer. If the roads are 100 percent completed, no dates are needed.

(6) Complete the following chart by listing the county seat (identify) and at least two nearby communities.

Include at least one community of significant size which offers general services.

Nearby Communities.....
Population
Distance Over Paved Roads.....
Distance Over Unpaved Roads.....
Total

(7) If the purchasers will be individually responsible for providing access to their lots and for maintaining that access, what is the estimated cost of construction and maintenance?

§ 1710.111 Utilities.

(a) *Water.* (1) How is water to be supplied to the individual lots (e.g., central system or individual wells)? Of the following items only those which apply to the subdivision need be included.

(i) *Individual system.* (A) If water is to be supplied by an individual private well, cistern or other individual system, what are the total estimated costs of the system, including but not lim-

ited to, the costs of installation, storage, any treatment facilities and other necessary equipment?

(B) If individual cisterns or similar storage tanks are to be used, state where water to fill them can be secured; the cost of the water, and its delivery costs for a supply sufficient to serve the monthly needs of a family of four living in a house on a year-round basis. Include a statement to the effect that water stored for extended periods tends to become stale and may acquire an unpleasant taste or odor.

(C) If individual wells are to be used and if the sales contract contains no provisions for refund or exchange in the event a productive well cannot be installed, include a statement to the effect that there is no assurance a productive well can be installed and, if it cannot, no refund of the purchase price of the lot will be made.

(D) If individual wells or individual cisterns are to be used, include a brief statement to the effect that the purity and chemical content of the water cannot be determined until each individual well or source of water is completed and tested.

(E) If there have been no hydrological surveys in connection with the use of individual wells or sources of hauled water for cisterns, include a warning to the effect that there is no assurance of a sufficient supply of water for the anticipated population.

(F) Is a permit required to install the individual system to be used? If so, from whom and where is the permit secured? State the cost of a permit.

(ii) *Central system.* (A) If water is to be provided by a central system, who is the supplier? What is the supplier's address?

(B) Will the water mains be extended in front of, or adjacent to, each lot? When will construction begin? What is the present percentage of completion of the water mains and central supply plant? When will service be available to the individual lots? If the central system is not complete and there are separate units or sections of the subdivision included in the Statement of Record which have different completion dates, then the starting date for construction (month and year), the
